The Third and Twelfth Districts Placed in Republican Column.

### STANDARD POLICY BILL ENACTED.

The House Passes the Hosea Measure in Which Fire Insurance Companies Are Interested—Other Doings in Legislature.

Columbus, O., April 30.—There was a general handshaking meeting in the house when the house passed into a law, the Hosea "standard policy" insurance bill. Those present at the meeting were the members of the insurance lobby, which has been energetically working for the passage of the bill for several weeks. It passed by a majority of three. The vote was 59 to 23. Although the friends of the measure are emphatic in their claims that the bill does not effect the valued policy act, there are those who insist that the primary object of the law is to attack the principal of that act and it was opposed largely upon those grounds. The bill upon its face, prescribes a form of policy to be used by all companies who insure against fire in this state.

One of the provisions in the bill which was most bitterly opposed is the repeal of the anti-co-insurance law. The present law requires that the insured must bear a part of the insurance himself. The example used was this. A merchant having a stock worth \$30,000, wants to insure for at least \$20,000; one company agrees to risk half that amount, but only upon condition that some other company or companies assume the other half; the first policy is issued, then if there is a total loss, the insured has to stand his share of the loss on the \$10,000 policy for which he has paid the premium.

Another insurance measure of more than ordinary importance was enacted into law by the house. This bill was introduced by Mr. Denman of Lucas county. It provides for the re-insurance of risks in any company, whereas the present law requires that reinsurance can be made only with companies authorized to do business in this state. The practical effect of this law is that reinsurance will be made in outside companies and the bars are let down for the admission of companies which before this could not do business in this state.

The Archer police court bill was passed. This law provides for the appointment of a police justice in all cities and villages. The appointment is made by a two-thirds vote of the councils and upon the recommendation of the mayor.

The house passed the second general appropriation bill after making several amendments. Both the appropriation bills and the deficiency bill are now in the senate.

#### In the Senate.

The Burnham redistricting bill taking Warren county from the Sixth and adding it to the Third congressional district, and detaching Fairfield county from the Twelfth and adding it to the Eleventh district, came up in the senate and was passed by a strict party vote without debate. The bill makes both the Third and Twelfth districts Republican, both now being in the doubtful column, but makes no other changes. The action seems to show that both Senator Foraker and Senator Hanna are satisfied to have these two changes made.

Senator Herrick of Cleveland introduced a bill in the senate which is anticipatory of a decision by supreme court knocking out the charter law for that city, and which provides that in case any such a decision is rendered relating to any city, then the present officers shall continue to serve until the next spring election, in order that chaos would not follow. The senate finance committee reported back the Allen resolution providing for sine die adjournment of the legislature on May 5, so amended as to provide for the final adjournment on May 12, one week from next Monday, and in this form it was adopted by a vote of 25 yeas to 1 nay, Mr. Godfrey casting the lone negative vote.

The second appropriation bill, making provision for the years 1903 and the first quarter of 1904 was read the first and second time in the senate Wednesday morning and referred to the finance committee.

The senate concurred in the passage of the York bill which gives municipal officers, county commissioners and township trustees the right to transfer money from one fund to another.

The senate passed these bills: H. B., compelling county clerks to make immediate entry of judgments; H. B., providing that security for costs shall not be required when labor

claims are concerned; H. B., providing for filing mortgages of telegraph, telephone and kindred property in the office of the county recorder instead of in the townships through which the lines pass; H. B., making service on railway ticket or freight agent sufficient to compel lighting of a bridge; H. B., authorizing county commissioners to pay principal and interest on armory bonds declared unconstitutional.

Senate indefinitely postponed Decker's taxation bill. Several Republican members were absent from their seats when the bill was called up by Senator Longworth, and Mr. Wilhelm, the member from Stark, voted with the Democrats against the motion to indefinitely postpone.

### A COLUMBUS ATTORNEY

Causes a Storm of Opposition at Prohibition Convention.

Zanesville, O., April 30.—The sum of 1,100 was raised for campaign expenses at the Prohibition convention. The committee on resolutions reported, demanding the "immediate and utter destruction of the saloon" and the prohibition of the liquor traffic.

Oliver J. Ross, an attorney of Columbus, caused a storm of opposition by moving that all reference to God be stricken from the platform and his motion was buried by a storm of noes.

In his address E. H. Pinney of Cleveland characterized the Anti-Saloon league as a failure, saying: "It has access to all the churches of the state and spent more than \$300,000 in the past 10 years. As a result of this we have seen abolished the laws prohibiting the sale of intoxicating liquors within two miles of an agricultural fair; the law providing for the recovery of damages for injury by an intoxicated person amended so that it is worthless, and imprisonment for Sunday selling abolished."

The ticket nominated is as follows: Secretary of state, A. L. White, of Muskingum; member of board of public works, Samuel V. Dunlap, of Pickaway; judge of supreme court, Albert L. Talbot, of Cuyahoga; dairy and food commissioner, George W. Ware, of Darke.

### STILL IN JAIL.

Italian Authorities Refuse to Release American Naval Attaches.

Rome, April 30.—The officers of the United States cruiser Chicago, who were arrested at Venice, remain in prison there. An application for their discharge has been rejected. The Italian law does not allow the court to grant pardons in cases of assaults on the police. Some of the newspapers mention the lynchings of Italians in the United States as sufficient reason for a refusal of royal clemency. It is considered probable, however, that the prisoners will be released by order of the king June 1, the date of the fete of the constitution.

### Captain Dayton's Report.

Washington, April 30.—Secretary Long has received the following cablegram from Captain Dayton of the Chicago, dated Venice, in answer to the department's inquiry: "Dodderidge, Wynne, Ledbetter, Kreps and one marine on leave arrested. Principal charge resisting police. Serious under Italian law. Sentences, Wynne, four months 10 days, remained three months each. Have not yet received their full statements or a report from court, but have applied for it. Resisting arrest largely due to pressing in of crowd and not understanding language. Appeal made to Rome. Impossible to explain all circumstances by cable. Will mail full report."

### A Horrible Death.

Detroit, April 30.—Crazed by the death of her 3-year-old child from scarlet fever on March 19, Mrs. Adeline Sage, poured a can of kerosene oil over herself and ignited it. Her agonized screams awakened her husband, who ran to her aid and tried to smother the flames with some bed-clothing. He realized in an instant that nothing could save her, and ran crying for help. Neighbors rushed in, but they could do nothing and when the nearest physician arrived, the last bit of flames were dying out of the woman's charred body.

### The Anthracite Conference.

New York, April 30.—The conferences between the representatives of the anthracite coal operators and of the United Mine Workers, was resumed. The four labor leaders, President Mitchell and District Presidents Fahey, Duffy, and Nichol were in consultation. Fahey spent some time in consultation with the members of the delegations from the affected districts numbers 1, 7 and 9. President Mitchell was questioned as to the probable outcome of the conference. He would not express an opinion on the subject.

It is thought President Roosevelt will take no further action in General Miles' case.

## RATHER HEATED TALK

Passes Between Major General MacArthur and Senator Patterson.

### OFFICER CONTINUES TESTIMONY.

The Witness Stated That the Presence of the United States in the Philippines Was a Benefaction to the Inhabitants.

Washington, April 30.—Major General MacArthur gave further testimony before the senate committee on Philippines. He explained his statement that absolute chaos would result should independence be given the Filipinos and the United States forces be withdrawn by saying that the unaided efforts of the people of the Philippines to accomplish self-regeneration would in all probability prove abortive, they being less prepared for self government and administration than any of the Latin-American republics at the time of their emancipation from Spain. The people of the Philippines, he said, have rudimentary ideas and aspirations and are therefore in an essentially plastic condition which under tutitional control of the United States would, in his opinion, admit of a rapid molding of the body politic into a consistent self-supporting commonwealth. Even the best thinkers among the Filipinos, he said, have no conception whatever of the practical mechanical efforts whereby the results they are all anxious to attain can be successfully accomplished. American withdrawal from the islands would, in his opinion, result in the permanent failure of republican institutions in the east and a fratricidal war which would continue until suppressed by some exterior force. The broad generalization, he said, is reached that the United States must retain the archipelago as a tutitional annex, that we must plant our institutions there, that we must contend for complete supremacy, perhaps combat for political difficulties of the situation, which will require the most profound efforts of constructive statesmanship.

He gave it as his conscientious belief that the presence of the United States in the Philippines is an unmitigated benefaction to the Filipino people.

"Do you mean the Filipino people that are left alive after they have been subjugated?" inquired Senator Patterson.

General MacArthur declared that he did not mean that there has been any unusual destruction of life in the islands. "The destruction," said he, "is simply incident to war and of course embraces a very small percentage of the total population, which is dense."

"Thirty-three and one-third per cent in one province," remarked Senator Patterson.

Replying to this statement General MacArthur informed Senator Patterson that if he preferred to believe that he (MacArthur) could not help it.

"We have as much right to believe that from an American officer who is the civil governor and who is there in the province as we have to believe you," replied Senator Patterson, which brought the retort from General MacArthur: "You can believe what you wish, and I will believe what I wish."

### Burial of J. Sterling Morton.

Nebraska City, Neb., April 30.—The remains of the late J. Sterling Morton, former secretary of agriculture, arrived in this city from Chicago on a special train. At the station a committee of prominent citizens met the funeral train and escorted the remains to Arbor Lodge. Governor Savage and his staff came from Lincoln on an early train and a large number of former associates and friends of the deceased attended the funeral. The business houses are draped in mourning and by request of the mayor business was generally suspended during the funeral hour. At the conclusion of the services at Arbor Lodge the funeral cortege moved to Wyuka cemetery, where the remains were laid beside those of his wife and his son Carl, in the family lot.

### Pistols Were Drawn.

New York, April 30.—For the first time in the recent police raids here on pool rooms and other law-breaking resorts, pistols have been drawn. Captain Sheehan, with three men gained admittance to a pool room in the heart of "Old Knickerbocker district." When the door swung ajar, however, scores of persons rushed from the rooms, which were located in an old brown stone front residence and attempted to throw the captain and his men over the balustrade. Captain Sheehan knocked several of his prospective assailants unconscious with a

club. His men were being rapidly borne toward the stairway, however, and pistols were quickly drawn. With bloodshed as a possibility, the crowd quickly submitted and 61 prisoners were carried to the tenderloin station.

### SHOCKING ACCIDENT.

Several Girls Killed and Many Injured During a Panic.

Philadelphia, April 30.—Seven girls are known to have been killed and more than a score injured during a panic at the cigar factory of Harburger, Homan & Co. The company employs 1,200 girls. A deaf and dumb boy employed in the factory caught his hand in the elevator and in his effort to make his mishap known he rushed into the midst of a group of girls excitedly waving his hand from which blood was dripping. Some person cried "Fire," and immediately there was a rush for the stairway of the building. The crush was so great that many of the girls turned back and rushed for the windows. Before they could be restrained from jumping a score or more had hurled themselves to the street, several being crushed to death. Ambulances were quickly on the scene and the dead and injured were hurried to the hospitals. Some of those taken to the hospital will die.

At 1:45 p. m. the police reported that seven girls were dead as a result of injuries received in the panic, three are dying at the hospital and 20 are under treatment for injuries. During the excitement the fire alarm in the corridor of the factory building was struck and the arrival of the engines on the scene added greatly to the terror of the panic stricken girls.

### DESPERATE FIGHT

Between Five Burglars and the Citizens of Crafton, Pa.

Pittsburg, April 30.—Five burglars blew open the safe in Daug & Pressler's grocery store at Crafton, Pa., at 1:30 a. m. The explosion aroused the citizens and a desperate fight ensued between the officers, the citizens and the thieves. Officer Thomas Westcott was shot through the leg and Officer William Peak was struck on the head with a heavy chisel. The latter's condition is serious. The burglars finally escaped with the cash box containing about \$30. They went toward the Steubenville pike with a score of citizens chasing them. It is said the thieves are the same who have been operating in this city for the past few weeks and who shot Engineer Frank Stump of the Pittsburg and Western railroad near Millvale.

Later three of the burglars were captured and identified by Officer Westcott. Joseph Sullivan, believed to be the leader of the gang, was caught while swimming Chartier's creek.

### Shaffer's Election Assured.

Wheeling, April 30.—The Amalgamated association is still at work on the reports of the committee. Consideration of the report on constitution and by-laws is about completed. It is believed to be assured that a larger per capita tax will be decided upon in order to provide a surplus fund for future contests with the manufacturers. It is thought the election of officers and the conclusion of the convention will materialize in another day. The re-election of Shaffer is assured since the action of Assistant Secretary Tighe in refusing to allow his name to be placed before the convention. Thomas Williams of Zanesville is being boomed by the anti-Shafferites, but it is likely he will decline. The fight between St. Louis and Columbus for the convention of 1903 is warming up. Secretary Bassell of the Columbus board of trade is in the city and will make a personal plea for Ohio's capital.

### Flour Importers Protest.

London, April 30.—An influential delegation representing the flour importers of most of the large cities of the United Kingdom, had an interview with the chancellor of the exchequer to protest against the taxation of flour, which the delegates said would seriously affect the extent of the trade. The chancellor in replying, pointed out that the deputation represented solely wheat flour and that it was impossible to consider the grain and meal duties entirely from that view point. It was impracticable in imposing duties on grain to differentiate between grains. The imports of flour compared with the imports of wheat had grown enormously in recent years and he did not think it was to the benefit of the people of the country.

Dallas, Tex., April 30.—So many conflicting reports have reached here from the vicinity of Glenrose, the tornado-swept village, that it is hard to tell what the exact situation is. It is safe to say, however, that the original number of deaths did not exceed eight. The latest report emits the name of Mrs. Mungrove from the dead and says she was only bruised.

## TERMS OF THE OPTION

For the White Star Line Steamers Accepted by the Morgans.

### AN OFFICIAL STATEMENT ISSUED.

Bankers of New York and London Are Said to Be Providing Funds for the Famous Navigation Syndicate.

New York, April 30.—Despite the wealth of rumors regarding the great steamship deal, bankers in this city are financing the combination.

A majority of the stockholders of the American and Red Star lines will deposit their shares with the London and New York bankers and when the basis of the exchange of stock shall have been fully worked out these shares will be exchanged for new shares of the American holding company. The combination has been temporarily called the navigation syndicate. This is the name which appears on the underwriting sheets.

An interesting feature of the underwriting syndicate's plans is the apparent disclosure of the fact that cash has been paid for the control of the Leyland line and that a part of the present bond issue will reimburse the purchasers for the outlay made. It is also inferred from the underwriting disclosures that cash also will be paid to some of the other lines entering the combination, while the funds required for a working capital will be drawn from the amount subscribed by the navigation underwriting syndicate. Already payments have been made by J. P. Morgan & Co. on the purchase of the Leyland line which was accomplished soon after Mr. Morgan's arrival in England a year ago.

### Morgans Will Act.

London, April 30.—The Morgans, who had the option on the White Star line to enter the Atlantic Shipping combine, have notified that line of their intention to carry through their part of the agreement. An official statement on the subject was issued by the White Star line. It says: "The White Star line entered into a provisional agreement with the Morgan company, in February, with the object of securing community of interest between the American, Atlantic Transport, Dominion, Leyland, Red Star and White Star lines. The agreement was binding on the White Star line, but it was optional as regards Mr. Morgan until April 30, upon which date the agreement expired unless extended by mutual consent. Mr. Morgan has given notice to the White Star line of his intention to exercise the option and of proceeding with the agreement. It is now in order for the agreement to be submitted to the shareholders of the White Star line and other companies, the confirmation resting absolutely in the shareholders' hands. The shareholders of the White Star line will meet in May."

### Morgan's Slice.

London, April 30.—J. P. Morgan gets \$2,500,000 in stock of the shipping combine, in return for his services in organizing and financing it.

### Funston Coincides.

Denver, April 30.—When General Funston's attention was called to the declaration of General MacArthur that he (MacArthur) was responsible for the methods used in the capture of Aguinaldo, he said: "That is right. General MacArthur made a similar statement several months ago. This is simply a repetition of his former utterances when he said he was responsible for the methods in the capture of Aguinaldo. I got up the plan and submitted it to General MacArthur. The whole plan was submitted to him and he endorsed it. Then the expedition was entered upon and carried out, resulting in the capture of Aguinaldo."

### Cockran's Views.

New York, April 30.—W. Bourke Cockran, who has just returned from a trip to Rome, Egypt and London, said that in his opinion, if the Boers will make an oral concession of defeat the English will pay them almost any sum to restore their destroyed homes and repair the ravages of the war. In other words, he said, England is ready and anxious to pay a large sum of money to bring about peace in South Africa.

Santa Fe, N. M., April 30.—Reports from all parts of the territory indicate that sheep are dying by the hundreds. This is lambing season and the number of lambs that will be saved will be unusually small. The range has practically dried up on account of the drought. Added to the losses of the sheepmen in the territory comes reports that grasshoppers are already creating havoc in the northern Rio Grande valley.

The information from Washington is that the Republican Ways and Means Committee has practically agreed to take no steps in connection with the present agitation directed against the beef trust. A number of bills placing meats and poultry on the free list have been introduced and referred to the committee, but these bills will never reach the House. The Democratic resolution, providing for an investigation of the present rise in prices, will probably be tabled. Chairman Payne, of the Ways and Means Committee, is of the opinion that nothing should be done by the House while the investigation begun under the direction of the Attorney General is under way. You can bet your last dollar that the Republican Congressmen will not do anything to interfere with the trusts unless they are forced to it.

In the days when the "bread loaf" was dear careful mothers had a set of thrift sayings which are seldom heard in this time of the big, cheap loaf. Crumbs were regularly swept up and kept for some useful purpose. If a child threw crumbs in the fire, the old fashioned mother lifted a warning finger and said, "If you throw crumbs in the fire, you are feeding the devil." Children were told that the better part of a loaf was the crust, and when a child was sent to the shop for bread the order was to ask for "a crusty loaf." If a child left its crust, came the warning: "Yes, my lady (or my lad), you'll want for a loaf some day. You'll find hunger's a sharp thorn."—Notes and Queries.

Norwegian weddings are almost always celebrated at the close of a short Scandinavian summer, a season which the industrious Norwegians find too short in which to work and from which they would never dream of taking the days that are necessary for the long drawn out festivities of the Norse wedding. So the maidens who are wooed all the year round are usually wedded at the beginning of winter. Norwegian wooings are very frank and very long a-doing. On summer Sundays the lanes, the highways and byways are a-teem with lovers. Each couple saunters slowly along, not in the least shy, his arm about her shoulders, her arm about his waist. Nor do they untwine their arms if they pause a little to chat with friends, not even if they stop to speak with casual acquaintances. Ten or a dozen years often elapse between the first day of courtship and the day of marriage, while a seven years' betrothal is considered of very moderate length.—Woman's Home Companion.

"Have by some surgeon Shylock on thy charge to stop his wounds lest he do bleed to death." People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and so increase the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail. Twenty-one one-cent stamps to cover expense of mailing only will obtain a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, in paper cover. Send thirty-one stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

Their traveling expenses on these occasions are to be paid out of the funds of the institution. The home is to be continued for twenty-five years, or longer if necessary. ### Take Greeley's Advice.

[Lexington Democrat.]

When Horace Greeley first became a vegetarian he felt for the first few weeks as if he was recovering from a prolonged state of intoxication. When he had finally adjusted himself to the change, he was more vigorous mentally and physically, and gave it as his deliberate opinion that the universal adoption of the vegetarian diet would add ten years to the average human life. At present meat prices the Greeley experiment can be easily tried.

## THE SECRET OF

# Good Clothing

Lies in the length of time it can be worn without appearing old. Lots of cheap suits look well in the windows, but after wearing them a few weeks their shape is gone and it's all up with them. Our Rochester made goods are always good for two entire seasons—we see many of our customers wear them three seasons and still look "good."

Our entire spring lines are in, and such a feast in good things as we set before you is rarely the privilege of clothing buyers to partake of.

Not only in clothing beginning with the little fellows up to the largest of the genus homo, but in all that pertains to the sterner sex's outfit, we have the best that is made for your inspection. We call your attention to our wool crash outing suits and pants, our Norfolk coats and pants, the very swellest of the swell. Our two button Double Breasted Serge and Thibet Suits are the proper caper for good dressers.

Take a glance at our Hopkins Straw Hats. Our Hanna Low Cut Shoes. Our Manhattan \$1.50 to \$2.50 Shirts. More like them were ever shown here before this season. In short, ours is "the" store if you want the "right thing" at the "right price."

### SMALLPOX IN MT. OLIVET.

#### A Physician Contracts the Disease While Attending His Patients.

MT. OLIVET, KY., April 29.—Mt. Olivet now has fair prospects of undergoing another epidemic of smallpox. Dr. Geo. E. Neal has a genuine case. Two years ago the disease made its appearance in this town and surrounding country, and months elapsed before the scourge was stamped out.

A short time ago a family named Galbraith moved into the old Brewer house, some five miles out of town. Two years ago a family had smallpox while living in this house. When the Galbraiths moved into it they gave the rooms a good cleaning, but in a week or ten days some of the family broke out with smallpox. Dr. Neal was sent for, and in waiting on the family contracted the disease.

A number of persons living in the vicinity of the Galbraiths have taken the disease, and without proper precaution the surrounding country is in danger of a repetition of what it suffered two years ago.

### BOARD OF EDUCATION.

#### Time For Election of Most of City Teachers Changed to May 26th—Board Votes to Consolidate Schools of First Four Wards.

At the meeting of the Board of Education last night a motion was adopted changing the time for electing the teachers of the High School and of grades 5 to 8 inclusive from July 1st to May 26th. The election of primary teachers will be held July 1st.

County Superintendent Wells was granted the use of the High School building on May 16th to hold the county examination. All city teachers who desire to take this examination were granted a holiday on that date.

Mr. Wells was also granted use of the colored school building on May 23rd for the colored examination. Colored teachers, who wish to take the examination, were granted a holiday.

Mr. Wells was also granted the privilege of using a vacant room in the Fifth ward school building in which to hold the examination for county diplomas on the second Friday and Saturday in May.

Mrs. Geo. T. Hunter appeared before the board and offered to sell her property fronting on East Third street and extending through to Second for \$12,000 cash or its equivalent. To get the opinion of the board on the subject, Captain Davis offered a resolution that all the white schools in the first four wards of the city be consolidated in one building. The motion was adopted, only one vote being cast against it.

Mrs. Hunter's proposition was then referred to the Finance Committee, with instructions to confer with all others who may have suitable property to offer to the board, and report prices, &c. at next meeting.

Mr. W. H. Meenach tendered his resignation as a member from the Sixth ward and Mr. Sherman Arn was elected to succeed him. On account of business engagements Mr. Meenach was unable to attend to the duties of the position.

Mr. M. C. Daily presented his certificate of election and qualification as a member from the Fifth ward, and asked to be given his seat. The matter was referred to the Committee on Rules and Regulations.

Secretary Slattery reported collection of about \$22.50 tuition from non-resident pupils.

Reports of the census of the city, just completed, were filed, showing a total of about 1,300 white and colored children of school age. This includes the colored children of the Sixth ward.

At the urgent request of a number of members from the county of the Dr. Basil C. Duke Chapter, U. D. C., the next meeting will be on Monday morning, May 5th, at 9:30 o'clock, instead of May 6th as before announced. Please note the change and come promptly.

Greenup's local option election suit has been decided in favor of the "wets." In May, 1899, there was a vote taken as to whether liquor should be sold in the town of Greenup. The "drys" won by a majority of five. The "wets" contested on the grounds of illegal election, and Judge Harbeson has sustained them.

The report which has been circulated that Miss Eliza Pollitt has been adjudged of unsound mind does the young lady a great injustice and has given her no little amount of unnecessary worry. No legal action was taken and it is a pity persons are so unguarded in expressing themselves about such serious matters.

Oil excitement in Rowan County continues to run high. Stock of companies which have developed territory sells at a handsome figure when it can be bought at all. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whisky, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. ### BOARD OF TRADE.

#### Committees for Ensuing Year to Be Named Next Monday.

To the members and Board of Directors of the Board of Trade of the City of Maysville: We have secured the names of about 150 of our best citizens as members of the Board of Trade of this city. This means much to our commercial life. It can be made to mean a great deal for the up-building of Maysville and the surrounding country.

A meeting of the Board will be held on next Monday evening, May 5th, at which time we hope to have the committees made up and have everything in shape for active business. In the mean time, we appeal to every member of the Board of Trade to secure at least one other name for membership. Surely there are 300 men in the city of Maysville who are willing to give \$2 and put forth their best efforts for the promotion of such worthy enterprises as are being taken up by this organization. Let this appeal mean you, and by united effort let us make membership in the Board of Trade mean something.

We trust that we may have the hearty support of every progressive citizen.

JOHN DULEY, President.

#### Organ Recital.

An organ recital will be given at the First Baptist Church by Prof. Barbour, of Cincinnati, this evening, beginning at 8 o'clock, affording everybody an opportunity to hear the new pipe organ. #### Revival Services.

The meetings at the First Presbyterian Church increase in attendance and interest. Last night Dr. Worrall preached a sermon of great power and beauty to a large audience. His heart is wrapt up in this sort of work, and he has marked gifts for it. Meetings at 3 p. m. and 7:30 p. m.

It is reported John Yates was shot and killed at Carlisle last evening by Joe Day. Both are Maysville negroes and have been with the Sells-Downs show.

Mr. Hiram M. Taylor, of this city, the energetic representative of the Northwestern Mutual Life Insurance Company, has been promoted to a district agency, embracing Mason and several adjoining counties. This is a well merited promotion, as Mr. Taylor is one of the wide-awake, active insurance men of this territory.

Mr. R. S. Porter, of Forest avenue, won second prize (\$50 in cash) in a can-vassing contest for The American Poultry Journal that closed April 19th. There were 800 contestants. Between Feb. 2nd and April 19th, Mr. Porter secured 297 subscribers for the paper. The party who got first prize secured twenty-three more subscribers than Mr. Porter sent in. Mr. Porter is over sixty-one years old, but is a hustler for his age. He traveled through several counties.

Borers for oil near Gallatin, Tenn., at the depth of 1010 feet struck a large volume of sulphur water, which was thought at the time to be only an indication of the near proximity of oil. It has since been found that the drill penetrated a vast underground sea of unfathomable depth, the water rising in one night 500 feet, and is now within a few feet of the mouth of the well. A roaring sound is continuously heard, coming from the unknown depths, and throngs of people are visiting the well. The water is sulphurous and ice cold.
